Our Banquet Dinner is our annual fundraiser to raise funds for the needs of the children within our community and with your support this event can be a huge success! Our organization is representative for providing nutritional education, body fitness and health and wellness services to school districts located in Sacramento County, California and its outlying areas. Our programs' designed application is merited by community outreach events and our health and wellness programs. Our goal is to cultivate a community of learners by fostering communication between home and school, developing partnerships in the community, and by improving materials, programs, and equipment.
